

STREAMLINING IT PROCUREMENT: AUTOMATING STANDARD LAPTOP ORDERS WITH FLOW DESIGNER

PHASE 5 :PROJECT DEVELOPMENT

5.1 ServiceNow Setup

Setup

Open ServiceNow. Navigate to All → Flow Designer under Process Automation.

5.2 User & Role Configuration

Configuration

The flow is configured to run as System user. The source does not document additional user-role configuration.

5.3 Catalog Item Creation

Catalog Item

The implementation uses the existing Standard Laptop item under Service Catalog → Hardware. The documented steps do not describe creating the item from scratch.

5.4 Laptop Request Form

Request

Navigate to Service Catalog → Hardware → Standard Laptop and select Order Now to place the request.

5.5 Flow Designer Configuration

Configuration

- Create a new Flow named '**Standard laptop task**', set Application to Global, set Run user to **System user**.

- Add a Service Catalog trigger and click Done.
- Add the Create Catalog Task action.
- Drag Requested Item Record into Request item.
- Allow the table to populate as Catalog Task.
- Set Short Description to Laptop need to Configured.
- Set Description to Laptop need to Configured.
- Set Assignment Group to Hardware.
- Set Approval to Approved.
- Leave remaining fields at their defaults.
- Save and activate the flow.

5.6 Approval Automation

Approval

The Catalog Task action is configured with Approval = Approved. The request is approved from the Approvers section of the Request record.

5.7 Task Assignment

Assignment

The Create Catalog Task action sets Assignment group = Hardware. The Standard Laptop catalog item's Process engine is then configured to use the 'Standard Laptop Task' flow.

5.8 Notifications

Notifications

The source does not document a separate notification configuration. The documented process focuses on request approval and Catalog Task creation.

5.9 End-to-End Workflow

End-to-End

1. Open ServiceNow.
2. Create and activate the Standard laptop task flow.
3. Assign the flow to the Standard Laptop service catalog item.
4. Open **Service Catalog** → **Hardware** → **Standard Laptop**.
5. Click Order Now.
6. Open the Request Number.

7. Open the Approvers section and approve the request.
8. Open the Requested Item.
9. Open Catalog Tasks and verify the updated task status, short description, and assigned group.
